

SPEAKER PROFILE

André Baruchel

André Baruchel, MD, is Professor of Pediatrics at the Université de Paris and head of Pediatric Hematology-Immunology Department at the University Hospital Robert Debré (AP-HP) in Paris, France.

After medical studies at University Paris Descartes, André Baruchel has been trained in Pediatric Haemato-Oncology as a fellow in the Saint-Louis Hospital. He specialized in the field of pediatric leukemias both on the laboratory aspects (MRD studies, clonal evolution) and clinical research finally becoming the leader of the French Acute Lymphoblastic LEukemia Group (FRALLE) with a special interest in the adolescent. He is the coordinator of the French national ALL protocol (CAALL-F01). He is also involved in the new drugs field and became a member of the Innovative Therapies for Children with Cancer (ITCC) consortium executive board. Over the last years he particularly focused on the CAR-T cells area, Robert Debré Hospital being the first authorized center for pediatrics in France. He has served as a member of the International Member Committee of the American Society of Hematology (ASH) and has been a 10 year-member of the Data Safety Monitoring Committee of the Children's Oncology Group (COG).
